**NEW AUDIENCE AURA-TEFLON
HIGH RESOLUTION CAPACITORS
NOW SHIPPING**

-- simply the highest resolution capacitor ever made --

San Marcos, CA, October 1, 2007 - Audience, LLC, an award-winning designer and manufacturer of high-resolution capacitors, audio cables and power conditioning products, today announced that release of a new Teflon audio grade capacitor.

“Our legacy Auricap high resolution polypropylene capacitor has been an industry staple for many high end audio/video manufacturers and DIY enthusiasts over the past ten years. Like every product we sell, the new Aura-Teflon high-resolution capacitor is the result of our giving our engineers the time and resources to make a truly advanced product. After years of refinement, we feel that the new cost no object Aura-Teflon is simply the most resolute and transparent capacitor ever engineered.”

AuraTeflon capacitors are pre-cooked to minimize the multi-hundred hour break in

period typically associated with Teflon capacitors.

Audience, LLC was established in 1997. Since then, the company has become one of the most respected producers of high-performance, audiophile grade cables, powerChords, Adept Response power conditioners, Auricap capacitors, and Auric Illuminator resolution enhancement treatment for optical discs.
